Funding delivery Working Parent Entitlement & FEE
2026 - 2027

Dear Parents/Carers and families

As you are aware the Government have amended the amount of funding parents can claim from September 2025. We ask that you read all information below to ensure you have a good clear understanding on our funding delivery model.

Universal 3 year – 4 year government funding (FEE)

All children qualify for 15 hours funding over 38 weeks of the year the term after a child's third birthday. Parents may also qualify for the additional 15 hour Working Parent Entitlement (WPE) funding. Please see the information and guidance below.

Working Parent Entitlement – 9 months – 4 years

Working Parent Entitlement is for eligible children from the term following the child reaching 9 months - 4 years.

To qualify for the Working Parent Entitlement, each parent (or the sole parent in a single parent family) must earn on average, the equivalent of 16 hours on the national minimum living wage per week and no more than £100,000 per year. Self-employed parents on zero-hour contracts will be eligible if they meet the average earnings threshold.

Families where one parent is not in paid employment (or neither parent works) will usually **not** be eligible for these additional hours. Parents who are studying or in training will not be eligible unless this is combined with paid work which meets the minimum average earnings threshold. Eligibility will be checked by HMRC and will be based on actual income earned.

It is the parents' responsibility to ensure they're confirm their child's funding code every 3 months. If this is **not** completed your child/ children may lose the working parent entitlement funding and **full fee's will be charged**.

Tax Free Childcare Scheme

Parents are able to apply for both 30hour Working Parent Entitlement and the *Tax-Free Childcare scheme* through a joint online application, as the eligibility requirements for both schemes are aligned. Further information can be found at www.childcarechoices.gov.uk
