

Homework Menu

Year 6 – Term 1

The Homework Menu

This year we will continue to embrace a more relaxed approach to home learning. We have set tasks that may be completed at home as homework. These tasks can also be completed in the case of longer periods of absence or in the case of school closure. We will award Dojo points for any homework completed, but we are not asking for a minimum points total this term.

Side Orders (Optional)		Main Courses	
These activities, which link with the topics being studied in class, can be completed to further extend your child's learning.		A range of these activities must be completed <u>every day</u> to support your child's learning.	
<u>Writing – Evacuation Leaflet</u> Write a leaflet which would be given to children who were being evacuated during WW2. You will need to think about what they would need to take and what they would need to prepare.	4	<u>Reading</u> Pick up your reading book and enjoy immersing yourself in a story. This could be you reading or being read to and can be fiction or non-fiction books. Don't Forget to talk about your book with an adult. What are the main characters like? How are they feeling? What might happen next?	2
<u>Topic – Topic – Battle of Britain</u> Research the Battle of Britain. You may choose to display your findings as you wish – poster, leaflet, artistically, video etc.	4	<u>Spellings</u> We will provide a spelling list that is linked to an essential spelling rule each week, which will be taught in school alongside this. We will set the weeks spellings on a Monday and will revise their progress the following Monday using a variety of methods. They can practise the week's spelling rule in the way which you find most useful. This might be by drawing Calligrams or colouring in letters. Prefer working online? Try Spelling Frame on your computer - https://spellingframe.co.uk/ Or Spelling and Grammar Bug – we will provide the children with their passwords.	2
<u>D&T – Anderson Shelter</u> Create a model of an Anderson Shelter using a range of materials. We are looking for the whole model to be the approximate size of a shoe box.	4	<u>Times Tables Rockstars</u> The school provides your children with access to both Times Tables Rockstars and Mathletics. Log on and find an exciting activity to practise! Speak to your teacher if you have forgotten your login.	2
<u>Science / Outdoor and Adventurous – Leaf/Tree Study</u> *Note – this is worth starting at the beginning of term and re-visiting over the term* Find a tree in your local area and observe how it changes over the term. This can be recorded through sketches, labelled photographs, leaf rubbings or similar.	4	<u>Mathletics</u> The school also provide your children with access to Mathletics. This is used to keep basic knowledge and skills at the forefront of the children's minds whilst their learning is extended in class.	2
<u>Topics to be covered in Term 1</u> <u>Maths</u> – Place Value, rounding, negative numbers, adding and subtracting, long multiplication and division <u>English</u> – Setting description and write diary entries (we will explore extracts from Anne Frank's diary in English at school)			

<u>Science</u> – Evolution and Inheritance
